

SUVODA®

Trial wisely

Greenphire Patient Payments

Easing the financial barriers to clinical trial participation

A single,
patient-centric
workstream

Patented technology
powers rapid design
and deployment

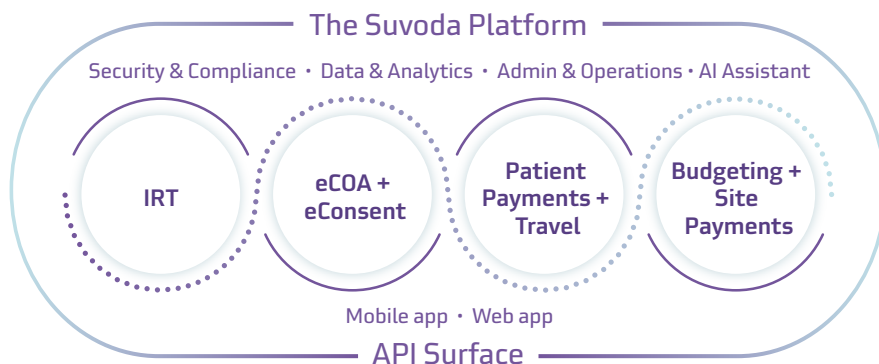

Reduced
integrations and a
single data model

Future-proof eClinical
programs with flexible
solutions

Seamlessly manage mission-critical, time-sensitive, and complex financial and patient-centric workflows across your clinical trials with the Suvoda Platform. By delivering real-time data that informs decision-making through critical moments like investigator grant budgeting and payments, randomization, patient payments, and endpoint collection, the Suvoda Platform eases the experience for sponsors, CROs, sites, and patients. Suvoda's patented technology powers rapid design and deployment, while allowing our expert services team to tailor solutions to meet the needs of each protocol. Embrace the inherent complexities and constant change with a modern, precision-built platform that supports calm action and confident decisions to move life-changing studies forward.

Transform how you manage patient payments for your global trials

Greenphire Patient Payments combines an internationally accessible and easy to use portal, flexible payment methods, and global support to simplify payment operations and boost patient engagement. Pay participants in real time, reduce manual administrative tasks for site staff, and gain complete financial transparency and control.

Trusted Experience

30m+ payments made to participants globally

User Satisfaction

91% site satisfaction rating

Results

15%+ increase in participant retention

Benefits of Greenphire Patient Payments

Streamlined Payment Workflow

Intuitive interface allows sites to register a participant and make a payment in under 1 minute, significantly reducing administrative effort.

Improved Engagement & Retention

Real-time payments, notifications, and mobile access remove financial barriers and keep participants enrolled.

Global Flexibility

With flexible payment methods—card, digital, and direct-to-bank options—participants around the world can get paid how they want, in their local currency.

Financial Control & Visibility

Robust reporting and centralized funding give sponsors complete transparency and control over cashflow.

Seamless Experience

With all products interconnected on the Suvoda Platform, the experience for patients is real time. For example, a site visit or a questionnaire completion can trigger an automatic payment.
