SUVODA®
Trial wisely

Greenphire Travel

Remove travel barriers. Ease participation. Drive retention.

Seamlessly manage mission-critical, time-sensitive, and complex financial and patient-centric workflows across your clinical trials with the Suvoda Platform. By delivering real-time data that informs decision-making through critical moments like investigator grant budgeting and payments, randomization, patient payments, and endpoint collection, the Suvoda Platform eases the experience for sponsors, CROs, sites, and patients. Suvoda's patented technology powers rapid design and deployment, while allowing our expert services team to tailor solutions to meet the needs of each protocol. Embrace the inherent complexities and constant change with a modern, precision-built platform that supports calm action and confident decisions to move life-changing studies forward.

- A single, patient-centric workstream

- Patented technology powers rapid design and deployment

- Reduced integrations and a single data model

- Future-proof eClinical programs with flexible solutions

The Suvoda Platform

Security & Compliance · Data & Analytics · Admin & Operations · AI Assistant

- IRT
- eCOA + eConsent

SUVODA®

Personalized travel support designed with your participants in mind

Greenphire Travel is a comprehensive service that delivers global travel and logistics support for patients and caregivers throughout a trial. Our offering removes the burden of coordinating travel arrangements for sites and patients, while covering all expenses up front. From rideshare and trains to international flights and visa services, we offer a wide range of options and delivery models to make sure that each patient's needs are met. With dedicated local language support staff, travel partners, and concierge coordinators stationed around the world, we are committed to providing the best possible experience for every patient, and removing the logistical and administrative barriers that stand in the way of trial participation.

Local Expertise

90+ concierge coordinators around the world

Global Coverage

50+ countries supported to date with the ability to provide services globally

Impact

$0 out-of-pocket for patients, caregivers, and sites

Benefits of Greenphire Travel

Reduced Site Burden
Minimal effort required for sites to request travel. Our coordinators and travel agents handle booking personalized itineraries for patients.

Improved Engagement & Retention
Handling travel arrangements and eliminating out-of-pocket costs provides patients and caregivers with peace of mind, making it easier to stay in the trial.

Intuitive Interface
Simple travel request workflow and rideshare integration enables travel arrangements to be made quickly and with complete visibility.

Personalized Touch
Concierge support includes a single point-of-contact for each patient, easing even the most complex and burdensome travel requirements.

Global Flexibility & Scalability
Expansive global travel network provides a scalable infrastructure with configurable services to meet logistics needs across all your studies.

Financial Control & Visibility
Travel spend reporting gives sponsors a clear line of sight into costs against budget.

Seamless Experience
Patients can view travel arrangements and, when enabled, make appointments, access questionnaires, submit receipts for reimbursements, and view payments and balance, all on the Suvoda app.
