

SUVODA[®]

Trial wisely

Suvoda app

A single, intuitive app to simplify the patient journey

A unified patient journey

Centralized trial details and tasks

Powered by the patented Suvoda Platform

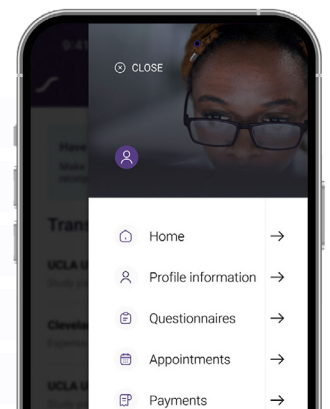

Fosters patient engagement and retention

Patients contribute so much when participating in a clinical trial. The associated hurdles, from time commitment and logistics to expenses, schedule management, and more, often deter trial participation. In fact, according to the NIH, 80% of delays in trial timelines are due to deficient recruitment and retention¹. Suvoda understands these challenges and is committed to easing the patient journey. The Suvoda app is a patient-facing mobile and web app designed to simplify the patient experience by providing control over study-related activities and details. Essential information and steps are centralized to keep participants engaged and trials on track.

Suvoda app enables patients to access their trial activity in one place

- 1 Questionnaires
- 2 Payments
- 3 Scheduling
- 4 Travel
- 5 Reminders

¹Brøgger-Mikkelsen M, Ali Z, Zibert JR, Andersen AD, Thomsen SF. Online Patient Recruitment in Clinical Trials: Systematic Review and Meta-Analysis. J Med Internet Res. 2020 Nov 4;22(11):e22179. doi: 10.2196/22179. PMID: 33146627; PMCID: PMC7673977

Easing the patient experience with centralized access to essential clinical trial workflows

Suvoda has unified key participant workflows, within a single, easy-to-use application. The Suvoda app includes self-serve visit scheduling, views into travel details, questionnaires, and access to reimbursements and financial views. Designed with real people in mind, the Suvoda app leverages user-centered design principles and the latest consumer technology to create a streamlined, intuitive patient experience.

→ Easy

One app for patient payments, travel, appointments, and eCOA questionnaires

→ Elegant

Consumer-grade quality and intuitive interface

→ Informed

Notifications and reminders keep patients engaged

Benefits of Suvoda app

Simplified patient journey

Intuitive app makes traditionally burdensome clinical trial participant requirements simple and stress-free.

Flexible access

The Suvoda app can be accessed on a participant's own device, a provisioned device, or the web.

Reduced administrative burden for sites

Self-service tools for patients drive efficiency and reduce the operational workload for sites related to visit and travel management, payments, appointment scheduling, and patient reported outcomes.

Improved engagement and retention

By centralizing and streamlining key information and steps, the trial experience is significantly enhanced, and participants are more likely to stay enrolled in the trial.

Increased visibility and data integrity

Patients receive timely reminders and interact in real time with the Suvoda app, helping capture up-to-date information that's immediately shared with sponsors, CROs, and sites through the Suvoda Platform.

Solutions delivered on the Suvoda app

- **eCOA:** complete diaries and questionnaires anytime, anywhere
- **Greenphire Patient Payments:** upload receipts for reimbursement and access to funds
- **Greenphire Travel:** a comprehensive view into travel itineraries and rideshare status
- **Scheduling:** view appointment availability in line with the protocol visit schedule and clinician availability, schedule and reschedule visits, and receive appointment reminders
